Event overview

October 24, 2025

10:30 am to 12:00 pm

As tablet computers go, the iPad is the market leader. This class will cover the basics: We'll give an overview of settings, touch navigation options, apps and a couple of cool tools.

This is a hands on class. Bring your own iPad or borrow one of ours (limit of 12).

Registration is recommended; dropping in will be possible if space permits. The class capacity is 16. Each person must register individually.
