Event overview

November 14, 2025

3:45 pm to 4:45 pm

Are you an aspiring coder? Want to learn or improve your coding skills in a fun, hands-on way? Join us for some fun after-school coding with *Scratch*. This fun project-based program will help youth to develop their coding skills over a series of sessions. Please verify your availability for all sessions from November 7-December 12 before registering.

This program is in collaboration with [Digital Moment](#) - a leader in digital learning for youth in Canada since 2013.

Recommended for youth ages 8 – 10. Children 10 and younger must be supervised by a parent or caregiver. Staff will assist with technology.

Registration is required. Participants should be able to attend all sessions - register once for the entire series. Register for up to 2 children at once — adult supervisors do not need to register.

Registration is closed.
