Study stars is a dedicated group of passionate teenagers committed to giving back to the community. Fueled by our love of learning and diverse skills and strengths, we offer tutoring to youth in grades 4 – 9 in various subjects, from mathematics to language arts. We tailor our approach to each student. We are able to help develop language skills for homework and conversation practice in English and French. Beyond academic support, our goal is to create a nurturing environment where youth can develop a genuine passion for learning. By collaborating with City Library, we aim to establish a lasting impact on education in our community, fostering a love for knowledge and academic success among the aspiring minds we have the privilege to guide.
