Event overview

February 28, 2026

2:00 pm to 4:00 pm

As the weather slowly begins to warm again and plants start their yearly bloom, cozy up to a good book outdoors. Join this workshop to transform regionally invasive plants, harvested from local restoration sites, into a unique bookmark!

Using a base of recycled paper, participants will learn basic paper-making techniques while also diving into discussions about local ecology and the history of plants such as English ivy, reed canary grass, tansy and buttercup.

The workshop is led by Joshua Ralph, creator of the [Invasive Art Initiative](#).

All ages are welcome, though children under 12 must be supervised by an adult.

*Space is limited, so registration is required. Questions? Email [info@nvcl.ca](mailto:info@nvcl.ca) or call 604-998-3450.*
