Event overview

May 21, 2026

6:30 pm to 8:00 pm

Knowledge of Microsoft Office is consistently in the top five requirements in job postings. Want to learn MS Office's most popular applications, Word and Excel? In these hands-on practice sessions, you can work through practice problems to gain the skills you need to use these applications.

We will be focusing on Advanced Excel for classes on May 21 & 28. We will be building on the skills we developed in the Intro to Excel classes as well as on the tasks done in the previous week. Because of this, it is recommended that you attend the intro classes as well as register for both advanced classes.

Registration is recommended. Register once to register for both classes. Each person must register individually. Drop-in available while space permits. Limit of 12 spaces.

There are 10 spots left out of 12
