Event overview

Online event

May 15, 2026

10:30 am to 12:00 pm

Do you want to learn about navigation technology like Google Maps? Or about public transportation and micro-mobility on the North Shore and GVA? Join us for this introductory course that will cover using TransLink - buses, Skytrain, SeaBus - using Google Maps, and the new micro-mobility bike share, EVO, on the North Shore.

This is a hybrid program; attend in person or via Zoom. Registration is required. Links will be sent to the email used to register. Dropping in will be available if space is available. Individual registration only.
