Event overview

Online event

April 18, 2024

7:00 pm to 8:30 pm

This is a hybrid program; you can attend in person or via Zoom.

Do you struggle to use your computer or mobile device and wish you could make it more accessible? In this class we'll show you settings that can make your devices easier to use, from making the text bigger and the mouse cursor easier to see, to special devices and apps.

Registration is recommended. 12 spaces are available for in-person participation. Dropping in will be available while space permits.

For virtual attendees, one hour before the program, the link will be sent to the email you used to register.
