

Silent study to close for building work

Published: October 25, 2023

Categories: [Library news](#)

The second floor silent study area will be closed for about two weeks beginning Oct. 30 to accommodate work on the library's boardroom. There will be limited, alternative study spaces available in the building.

During this temporary closure, these spaces will be unavailable for public use:

- Second floor silent study
- Second floor boardroom

There might be intermittent construction noise. Free earplugs are available from any service desk.

Alternative places for quiet study
