Ancestry Library Edition, a library version of the popular online genealogical research website, Ancestry.ca, is now available for in-library use at City Library. This digital resource contains census and vital records, baptism, marriage and burial records, immigration and passport records and other documents from across the world.

Using Ancestry Library Edition

This resource is only available for in-library use. You can access this resource by using one of the library's public computers, or by using the library's Wi-Fi network. It cannot be accessed from any location outside of the library.

Get help using Ancestry Library Edition

Because this resource is tailored for library use only, you might notice some differences if you are familiar with the commercial version of Ancestry.ca. If you need help using the library edition, we recommend these digital tutorials:
