Centennial library cards (posted October, 2024)

Published: October 30, 2024

Categories: Centennial

Celebrate the library's 100th birthday with a special edition centennial library card available at the welcome desk beginning Nov. 12, while supplies last. This special edition card includes the same benefits as regular cards, including:

- Access to thousands of books, ebooks, e-audiobooks and digital resources like LinkedIn Learning, Solaro, CreativeBug, Kanopy and lots more.
- Cool stuff checkouts including birding backpacks, iPads, hiking kits, knitting needles, Chromebooks, music players, memory care kits and so much more. See our Borrow a device or kit page for details.

Pick up your new centennial card on or after Nov. 12. Cards are available for new and returning customers at the welcome desk, and only while supplies last.

Please note: customers may only have one active card at a time. One option is to get a centennial card to replace your current card. The centennial card will have a new barcode. Staff will move your account over to the new barcode. Your old card will no longer work. Alternatively, you can keep your current card as your active card, and get a non-active centennial card as a memento only.
