

System upgrades notice

Published: November 28, 2022

Categories: [Library news](#)

Beginning at 7 a.m. on **Wednesday, Nov. 30**, the library will be undergoing annual system upgrades on our catalogue. During that time, some regular account services will be temporarily unavailable:

- Item availability in the catalogue
- Placing holds
- Access to digital library collections
- Borrowing from Libby/Overdrive
- Public PC access
- Self-checkout stations

Typically, this work is completed within a few hours. We hope to have everything back up and running by the time the library opens at 9 a.m. on Wednesday, Nov. 30. Thanks for your patience while we complete this important work!
