Apexcam action cameras now available

Published: July 18, 2023

Categories: Collections | Library news

Record your next adventure with one of our new Apexcam 4K 20MP action cameras! These "GoPro" style cameras can safely capture footage in risky situations, thanks to an included heavy-duty waterproof case. The camera is light and small (about 7 x 6 x 3 cm.) and has attachments to stabilize the camera at high speeds and to help capture difficult angles.

The kit contains the following:

- Apexcam 4K 20MP action camera
- Open case with mounting screw
- Hand grip mount

- Handlebar mount
- Micro-USB cable
- Instructions
- Carrying case

Borrowers must supply their own SD card. The camera can be controlled via the LIVE DV app, available for iOS and Android.

The kit must be returned to the Welcome Desk. Please do not return a kit through the book return slot.
